

Cincinnati Flight Standards District Office
GL05FS61

A 5-hour Saturday afternoon course at 2 locations presented by the air traffic staff at CVG - Cincinnati Northern Kentucky Airport - for pilots and aviation enthusiasts.

Learn about ATC communications, tower operations, runway safety, radar vectors, separation standards, traffic flows at CVG, satellite airport management and how to use the air traffic system.

Let us learn from you about how we can better serve pilot users and the flying public.

Two Dates... Two Locations

Noon to 5 PM

Saturday, May 10,
